INDUSTRIAL CONFERENCE ASKED TO TAKE STEPS TO END STEEL STRIKE

Washington, Oct. 9.—The president's industrial conference today was asked to take steps to bring an end to the steel strike.

A resolution introduced with the approval of the entire labor group, providing that each of the three groups at the conference appoint two men, these six to constitute a committee to which be "referred existing differences between the workers and employers of the steel industry for adjudication and settlement."

Pending the findings of the committee, the conference is requested, under the terms of the resolution, to request the workers to return to their jobs and the employers to reinstate them in their former positions.

Chicago, Oct, 9.-The world proclaimed a new baseballing champion today.

On the diamond at Comiskey Park here this afternoon, the Cincinnati Reds realized the fond hopes of half century's duration, when they defeated the Chicago White Sox, hope of the American League, by the score of 10 to 5, thus taking five out of the eight games played and bringing the National League into its lone negro workman who was leaving own in the way of championships.

To the slugging of Moran's noble athletes, pre-series advertised as weak hitters, and the absolute effectiveness of one "Hod" Eller, goes the credit for the victory that brought the universal cheesecloth to the town on the banks of the Ohio, and squelched the eleventh hour ambitions of "Kid" Gleason and his band of ball

Claude Williams, erstwhile moundsman on the staff of Gleason, established a home-made record for himself, when he was slaughtered in the final combat, thereby losing his third game in this all-important series. Williams was hammered from the hillock in the initial frame, Big Bill James, a second rate hurler at his best, assuming the unequal burden. Gleason shuffled his cards again in the sixth, and with the score 5 to 1 against him, put his chips on Wilkinson, who was called to the rices to the allied cause during the kopje when the rampant Redlegs grew ambitious again in this

Williams was treated brutally by the now thoroughly aroused York a few days ago, and is on her Reds, and he floated to the showers with the four runs that spelled his downfall in the first inning, ringing in his ears. Bill James was flirted with in the second when the Patmorans scored another, and they touched the rangy hurler in the fifth for another

In the meantime Eller was breezing, but the desperate lads war opened. Unaffiliated at that from the banks of Lake Michigan spoiled his chances for a shut time with the Red Cross, she deter- out in the third session, when they chased one pale hosed warrior across the rubber. Long before this the Reds were conceded the World's championship they so richly deserved. Drawing the victory out to eight sent to Saloniki, in Greece, thence to games only made the series the more exciting. The Reds started off with a rush when they captured the first two clashes on their home grounds, and then took two out of three played at Chicago. With only one more win necessary to cinch the pennant, they ran and spent eight months in the devas- into reverses in the return to their home grounds, and the Windy City aggregation spilled them twice in a row. And then Duncan, If followed "Hail, Hail, The Gang's All Kopf, ss Here," provoked the crowd to assist in Neale, rf to the faces of the men of Gleason. Eller, p An ovation far more generous than was accorded them on the last appearance here, was given to the Reds when they pranced into view.

THE CAPITAL, LABOR AND PUBLIC CONFERENCE.

The Industrial Conference, representing all the three chief factors in the prevailing labor unrest, in Washington, will undertake the almost impossible feat of finding a final solution to an apparently insoluble problem, the task of seeking for some common ground of agreement that will make for better relations between em- | C. The Conference contains potentialities of inestimable usefulness, for irreconcilable week. as some of the most widely heralded differences may seem to be, there has never yet been a time when a frank exchange of conflicting views has not made for a clearer mutual understanding, a more tolerant attitude on the part of disputants toward their opponents. Herein lies the chief hope of the Conference, and its moral and educational value to the which its participants carry into the Rife, of Clifton, a graduate of Ce-

The remedies will be found not cheerfully and rejoice at the success in the imposition by force of the will of one side over the other, but in the elimination of injustice wherever it shall be found and in establishing cooperation in place of selfish autocracy. the spirit of public service instead of the mere pursuit of personal profit.

Doubtless there will be many disappointments over the outcome of the present Conference; but a failure to find final solutions of the complicated problems which lie at the root of the existing unrest need not mean failure of the Conference itself. Only those who expect the impossible will feel discouragement at the magnitude of the undertaking. The meeting itself is a sign of progress; the interchange of views from the opposing standpoints that will be represented will be a significant fact in itself. For if the conferees will be frank with one another, they and the public need have no cause for anxiety as to the utility of the Conference itself. It really marks an epoch in the period of reconstruction through which we are passing, and looking upon it in this light, its immense importance will not be underestimated.

CLUB HOLDS OPENING

Twenty-eight members of the Junior Woman's Club gathered at the country home of Mrs. Gowdy Wil-

liamson on the Jamestown pike, for the opening meeting of the club calendar year. Tuesday afternoon. The afternoon was a jovely one, and the short motor ride to the beautiful

Williamson home, was very enjoyable Mrs S. O. Hale, the club president, gave her annual address, and outlined the year's program, "New America and Her Potential Possibilities." Mrs Hale dwelt briefly upon each of the four divisions for reconstruction, which the club expects to take up in turn during the year; "The Community," "Education," "Commercial Life," "Political Life."

Members answered the roll call by giving weather signs.

Travelled Over 98 Miles Without a Sign of Wear! "SCIENTIFIC AMERICAN"

According to an unsolicited article in "The Scientific American," a Saube Sapphire Ball was played 1,000 successive times on Record with NO PERCEPTIBLE SIGN OF WEAR ON EITHER THE DISC OR SAPPHIRE BALL! Interesting figures made during this test, show that the Subs Sapphire Ball traveled over 98 miles, judged by the length of the groove on the record. Comparisons of the various reproduction mediums emphasize the superiority of the Pathe Sapphire Ball for duplicating the actual renditions of the artists.

THE Pathe ROUND SAPPHIRE BALL, polished so that it fits the record groove exactly, flows over the surface of the record giving proper tone rendering smoothly and accurately without the tone-marring, ripping of a steel needle so injurious to a record.

THE Sathe SAPPHIRE is PERMANENT—never requires changing. Many thousands of July owners constitute striking evidence of the advantages and superiority of the Suite reproducing stylus.

Records are guaranteed to play 1000 times No other Record manufacturer gives any guarantee

DR. MCCLELLAN SPEAKS ON CIVIC **CO-OPERATION**

A man who is an apostle of brotherly love, which is another name for community co-operation, spoke on this subject at a forum and luncheon of the Chamber of Commerce Wednes-

The speaker was Dr. B R. McClellan, who was probably better able to cope with such a question than any nember of the organization. He was ntroduced in glowing terms by Postmaster Harry E. Rice, Chairman of

Dr. McClellan took for his theme he fact that everyone is his brother's The community co-operation olan, he explained, was the only way which to bring about a better and bigger Xenia. The war, it was exained, had played a great part in nging about a better spirit in man-"America is more democratic oday, than it ever was," he said.

Dr. McClellan quoted from the logan of one Chamber of Commerce Invite your neighbor-you may like This in itself teaches a lesson of co-operation. He said the war logan of "make the world safe for lemocracy," had been replaced by the slogan "make the world better for ur children to grow up in.'

"I love that word 'community' Dr. McClellan,, "it means the bindourselves together in order to ourselves up." We can not get he best out of life ourselves selfish-To get the best for Xenia we have community spirit. If we are going to get together we must have charity in the heart-a genuine love for one another. There is a spiritual thing come out of the war that is greater to be desired than money, and material things. Let Xenia and Greene county be the foremost in community co-operation and uplift.

Dr. McClellan's remarks were neartily endorsed by other speakers. S Frazer, Dr. W. A. Galloway, H. L. Savre, Dr. A. C. Messenger and Kenneth Williamson, spoke briefly and their remarks carried weight as related to the subject under discus sion. I am looking forward with oleasure to what is going to happen in Xenia in the next five years," said Dr. Messenger. Mr. Williamson explained that the spirit used to be in Xenia that if anyone took the leadership in any civic movement, he was out for a little graft. "That day is past." he said. "If it helps Xenia lets get behind it."

Chairman Rice also endorsed the co operation idea. He scored the pessimist who believes that Xenia had not grown in the last ten years. Basing his statements on city directory and post office directory figures, he said that Xenia's population now is 11,500 unofficially, as against 8,500 ten years ago, showing an increase of 30 per cent." It is no mushroom growth either," said Mr. Rice.

That's What J. C. Hizer Did When He Bought the First Bottle.

That's what the reader can do. Every Nerv-Worth ad says "Your dollar back if this famous family tonic does not benefit you." Mr.

"Before I purchased a bottle of Nerv-Worth from you I was in a bad nervous condition. Could not digest or assimilate my food and was becoming weak and very much run down. After eating my heart would flutter and intermit and I became very much alarmed. For a year I subsisted on soup. Could not eat anything else. Gas formed in my stomach and I would bloat badly and my stomach was sore and painful. Many nights could not sleep but lay awake all night. Had severe headaches and rheumatic pains in legs and arms. Now after using three bottles of Nerv-Worth I am rid of all the ailments mentioned and am regaining my strength and vigor. The doctors failed to help me in the least. Acid-Stomach Makes 9 Out of 10 **People Suffer**

Doctors declare that more than 70 non organic diseases can be traced to Acid-Stomach. Starting with indigestion, heartburn, belching, food-repeating, bloat, sour, gassy stomach, the entire system eventually becomes affected, every vital organ suffering in some degree or other. You see these victims of Acid-Stomach everywhere—people who are subject to nervousness, headache, insomnia, billousness—people who'suffer from rheumatism, lumbago, sciatica and aches and pains all over the body. It is safe to say that about 9 people out of 10 suffer to some extent from Acid-Stomach.

If you suffer from stomach trouble or, even if you do not feel any stomach distress, yet are weak and ailing, feel tired and dragged out, lack "pep" and enthusiasm and know that something is wrong although you cannot locate the exact cause of your trouble—you maturally want to get back your grip on health as quickly as possible. Then take EATONIO, the wonderful modern remedy that brings quick relief from bains of indigestion, belching, gassy bloat, etc. Keep your stomach strong, clean and sweet. See how your general health improves—how quickly the old-time vim, vigor and vitality come back!

Get a big 50c box of EATONIC from your druggist today. It is guaranteed to please you. If you are not satisfied your druggist will refund your money.

The mailman came only twice a year.

Miss Thomas immediately took up her duties as purveyor of knowledge to the sixty Eskimos ranging in age from four to thirty years, who felt the yearn for education. At first she taught a night school, but after a month or so the sun began to show tself above the horizon, and the classroom gradually developed into a day establishment.

Reading, spelling, United States history, and artithmetic, comprised the IT'S BAD MEDICINE curriculum, and in the latter subject; three of her masculine pupils, aged 19, 31 and 30, attained the dignity of fractions. That was as far as they could comprehend.

"The girls have been held back for so many generations, that it will take several years before they can even approach the boys in intellect," she said. The only intellectual solution for the Eskimo is to take their brightest boys to the States, educate them, and then send them back to teach the speculation.

The factory buildings and water rights sold as a whole and were purchased by a group of Dayton men. It was not learned Wednesday what purpose the purchasers proposed to make of the property, but it was understood that manufacturing on a small scale would be entered into within the next few months. Purchasers from Dayton, Springfield, Osborn, St. Louis, and other places, were present. The bidding for some of the property, particularly the farm land, was

Farm land totalling 1,400 acres brought on an average \$250 an acre. The largest parcel sold comprised acres. The prices received for the 27 smaller dwellings in the village ranged from \$1,500 to \$2,000, with the 19 vacant lots selling at about half that price

The Harshman homestead of 14 rooms, one of the most beautiful country seats in southwestern Ohio, did not sell, for the reason that no offers were received for it and it will he sold separately, it was said Wednesday. The building could not be more conveniently arranged or situated for a club, it has been pointed! out, and it was reported Wednesday that a well known social club of Dayton may enter into negotiatons for the building and grounds.

The sale was largely attended throughout the day. The offer of so much desirable farm land together with dwellings which are considered ideal homes for workers in Dayton, and the factory buildings and exclusive water rights, brought prospective purchasers of all kinds from near

Chicago, Oct, 9.—The world proclaimed a new baseballing champion today.

On the diamond at Comiskey Park here this afternoon, the Cincinnati Reds realized the fond hopes of half century's duration, when they defeated the Chicago White Sox, hope of the American League, by the score of 10 to 5, thus taking five out of the eight games played and bringing the National League into its lone negro workman who was leaving own in the way of championships.

To the slugging of Moran's noble athletes, pre-series advertised as weak hitters, and the absolute effectiveness of one "Hod" Eller, goes the credit for the victory that brought the universal cheesecloth to the town on the banks of the Ohio, and squelched the eleventh hour ambitions of "Kid" Gleason and his band of ball

Claude Williams, erstwhile moundsman on the staff of Gleason, established a home-made record for himself, when he was slaughtered in the final combat, thereby losing his third game in this all-important series. Williams was hammered from the hillock in the initial frame, Big Bill James, a second rate hurler at his best, assuming the unequal burden. Gleason shuffled his cards again in the sixth, and with the score 5 to 1 against him, put his chips on Wilkinson, who was called to the kopje when the rampant Redlegs grew ambitious again in this

Williams was treated brutally by the now thoroughly aroused Reds, and he floated to the showers with the four runs that spelled his downfall in the first inning, ringing in his ears. Bill James was flirted with in the second when the Patmorans scored another, and they touched the rangy hurler in the fifth for another

In the meantime Eller was breezing, but the desperate lads war opened. Unaffiliated at that from the banks of Lake Michigan spoiled his chances for a shut out in the third session, when they chased one pale hosed warrior across the rubber. With the Redlegs holding a safe lead however, the lone tally did little damage and Eller was not in deep water at any stage of the afternoon's pastime.

> Long before this the Reds were conceded the World's championship they so richly deserved. Drawing the victory out to eight games only made the series the more exciting. The Reds started off with a rush when they captured the first two clashes on their home grounds, and then took two out of three played at Chicago. With only one more win necessary to cinch the pennant, they ran into reverses in the return to their home grounds, and the Windy City aggregation spilled them twice in a row. It would seem now that the Moranmen were only toying with the Sox, so absolute and humiliating a drubbing did they give the American League premiers in the final set-to.

ing to the White Sox and the Reds. Enthusiasm unlike anything ever | The Reds seemed not at all demighty assemblage loosened a vocal Wednesday, thunder that rivaled Niagara's tumult when the white hosed "comebacks" raced onto the field.

The Chicago band blew out "The Daubert, 1b Conquering Hero" harmony as soon as Grock, 3b it could make its sounds heard above Rousch, of the cheers of the crowd. And then Duncan, If the chorus work and brought a smile | Rariden, c to the faces of the men of Gleason. Eller, p An ovation far more generous than was accorded them on the last appearance here, was given to the Reds when they pranced into view. Barring a stiff breeze that swept

across the field-a 25 mile an hour affair—the day was ideal for baseballing. The low hanging clouds of the morning had disappeared: the mist faded under the rays of the sun-and everybody was cosy and comfortable, Both bleacher sections were filled at 1:15. There was only a few vacancies in the payilion at that time and the grandstand and boxes were filling rapidly. It looked like a 30,000 outpouring. And that was surprising in view of the fact that the rain of early morning caused thousands who had planned to come to the game to change their minds.

It was about fifty-fifty as to the spirit of men who had made up their dispatch from Berlin this afternoon.

The most wonderful thing about it fact that whilst it turns the most lifeless complexion to iant beauty and makes red or rough hands or arms snowy white, yet there is not the slightest sign of its use after application. It actually vainishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin.

No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, freckles, crows feet or lines around the mouth, ugly finger nails or just a simple roughness of the face, hands or arms caused by wind or sun, you will find that any or all of these troubles will quickly disappear with the use of Howard Buttermilk Cream. termiik Cream.

The remedies will be found not cheerfully and rejoice at the success in the imposition by force of the will of one side over the other, but in the elimination of injustice wherever it shall be found and in establishing cooperation in place of selfish autocracy, the spirit of public service instead of the mere pursuit of personal profit.

Doubtless there will be many disappointments over the outcome of the present Conference; but a failure to find final solutions of the complicated problems which lie at the root of the existing unrest need not mean a failure of the Conference itself. Only those who expect the impossible will feel discouragement at the magnitude of the undertaking. The meeting itself is a sign of progress; the interchange of views from the opposing standpoints that will be represented will be a significant fact in itself. For if the conferees will be frank with one another, they and the public need have no cause for anxiety as to the utility of the Conference itself. It really marks an epoch in the period of reconstruction through which we are passing, and looking upon it in this light, its immense importance will not be underestimated.

GLUB HOLDS OPENING

Twenty-eight members of the Junior Woman's Club gathered at he country home of Mrs. Gowdy Wiliamson on the Jamestown pike, for the opening meeting of the club calendar year, Tuesday afternoon.

The afternoon was a lovely one, and the short motor ride to the beautiful Williamson home, was very enjoyable, Mrs. S. O. Hale, the club president, gave her annual address, and outlined the year's program, "New America and Her Potential Possibilities." Mrs. Hale dwelt briefly upon each of the four divisions for reconstruction, which the club expects to take up in turn during the year; "The Community," "Education," "Commercial Life," "Political Life."

Members answered the roll call by giving weather signs.

Travelled Over 98 Miles Without a Sign of Wear! "SCIENTIFIC AMERICAN"

According to an unsolicited article in "The Scientific American," a Saube Sapphire Ball was played 1,000 successive times on a Sautic Record with NO PERCEPTIBLE SIGN OF WEAR ON EITHER THE DISC OR SAPPHIRE BALL! Interesting figures made during this test, show that the Suffe Sapphire Ball traveled over 98 miles, judged by the length of the groove on the record. Comparisons of the various reproduction mediums emphasize the superiority of the Salls Sapphire Ball for duplicating the actual renditions of the artists.

THE Pathé ROUND SAPPHIRE BALL, polished so that it fits the record groove exactly, flows over the surface of the record giving proper tone rendering smoothly and accurately without the tone-marring, ripping of a steel needle so injurious to a record.

THE Salbe SAPPHIRE is PERMANENT—never requires changing. Many thousands of Jule owners constitute striking evidence of the advantages and superiority of the See reproducing stylus.

DR. MCCLELLAN SPEAKS ON CIVIC **CO-OPERATION**

rly love, which is another name for community co-operation, spoke on this ubject at a forum and luncheon of the Chamber of Commerce Wednes-

The speaker was Dr. B R. McClelan, who was probably better able to cope with such a question than any nember of the organization. He was ntroduced in glowing terms by Postnaster Harry E. Rice, Chairman of

Dr. McClellan took for his theme the fact that everyone is his brother's The community co-operation lan, he explained, was the only way which to bring about a better and lained, had played a great part in nging about a better spirit in man-"America is more democratic

Dr. McClellan quoted from him." This in itself teaches a lesson of co-operation. He said the war logan of "make the world safe for democracy," had been replaced by the logan "make the world better for our children to grow up in.'

"I love that word 'community' " said Dr. McClellan,, "it means the bindno ourselves together in order to ourselves up." We can not get To get the best for Xenia we must have community spirit. If we have charity in the heart-a genuine love for one another. There is a spiritual thing come out of the war that is greater to be desired than money, and material things. Let Xenia and Greene county be the foremost in community co-operation and uplift.

McClellan's remarks were neartily endorsed by other speakers. S Frazer, Dr. W. A. Galloway, H. . Savre, Dr. A. C. Messenger and Kenneth Williamson, spoke briefly and their remarks carried weight as related to the subject under discus sion. I am looking forward with pleasure to what is going to happen n Xenia in the next five years," said Dr. Messenger. Mr. Williamson explained that the spirit used to be in Xenia that if anyone took the leadership in any civic movement, he was out for a little graft. "That day is past." he said. "If it helps Xenia lets get behind it.

Chairman Rice also endorsed the co operation idea. He scored the pessimist who believes that Xenia had not grown in the last ten years. Basing his statements on city directory and post office directory figures, he said that Xenia's population now is 11,500 unofficially, as against 8,500 ten years ago, snowing an increase of 30 pe cent." It is no mushroom growth either," said Mr. Rice.

The following letter to the editor of the Dayton Journal indicates that the people of Dayton are also alive to the dangers of fast and careless driv

Dear Sir--- As a woman reader of the Journal I desire to say that a movement should be started immediately to put a stop to reckless automobile driving on the city streets. Last evening I was almost run over by a young man who was trying to drive his car with one hand and spoon with a young woman seated beside him at the same time. The fact that he scarcely missed me did not seem to worry him in the least. He barely noticed the incident.

Two days ago I saw a child that was almost run over on Main street by a driver who was running at least 30 miles an hour. These are two incidents that have come to my notice this week. I am sure that a great majority of your readers could tell of similar occurrences. Really reckless and careless driving has reached the stage that it is a positive menace to the city. The wonder is that there are not more accidents.

time with her. I knew he called on her. So, like everything else, l gave him credit for being there far more often than he was. In fact, at this time there was not one little thing that would make me miserable that I did not dwell upon, and in imagination make far worse than it

1 wonder, if people realized how sensitive a second wife is to her position, whether they would be so careless in their talk-if they knew how being called 'Number Two' wounded, or how it hurt to hear the cause of the conversation I had over- first wife eulogized, they would so thoughlessly speak before the second

I do not think I was alone, in resenting the constant reference to my husband's first choice. I think many second wives, older than I, are hurt in the same manner, although they may be better able to hide it, to dissemble. But there cannot help but be n the same set." But I had felt a feeling akin to jealousy in the most amendable of women when they hear a first wife lauded, when they are told how beautiful she was, what a had married me instead of her, and wonderful character, or how brilliant mentally. It all hurts dreadfully.

A second wife often would forget he was the second if she were allowed to, if people would let her. But they won't! They seem obsessed to bring up wife number one in the conversation-to keep before the present wife the fact there has been one before her.

Often I read stupid jokes about a second wife, just as we have for years Don't suffer when you can get read them about a mother-in-law. I had not again looked at Leola's letters. I longed, yet dreaded, to read more of them. The two I had read had hurt me so, had made me feel that in spite of all my resolutions I never could be at all like Leola, so perhaps never win Everett's love. But I still kept them in my room; still retained the bunch of keys I had taken from Everett's drawer, Some day I would not only read the remainder of those I had brought to my room, but the others, written later—some of them ust before she died.

That Fate, Kismet, Providence, or whatever name we call it, would interefere, and that I never should know what those envelopes contained of ove, of sorrow, of upbraiding-I had no way of knowing. That the memery of the two I had read would be all I had to show me the passionate nature of Leola and her love for Everett, and that the memory of those words would help to further poison my life, I could not guess.

That's What J. C. Hizer Did When He Bought the First Bottle.

That's what the reader can do. Every Nerv-Worth ad says "Your dollar back if this famous family tonic does not benefit you." Mr.

"Before I purchased a bottle of Nerv-Worth from you I was in a bad nervous condition. Could not digest or assimilate my food and was becoming weak and very much run down. After eating my heart would flutter and intermit and I became very much alarmed. For a year I subsisted on soup. Could not eat anything else. Gas formed in my stomach and I would bloat badly and my stomach was sore and painful. Many nights could not sleep but lay awake all night. Had severe headaches and rheumatic pains in legs and arms. Now after using three bottles of Nerv-Worth I am rid of all the ailments mentioned and am regaining my strength and vigor. The doctors failed to help me in the least. I am thankful that I tried Nerv-Worth as it brought relief right from the start, "J. C. HIZER,"

Acid-Stomach People Suffer

Doctors declare that more than 70 non organic diseases can be traced to Acid-Stomach. Starting with indigestion, heart-burn, belching, food-repeating, bloat, sourgassy stomach, the entire system eventually becomes affected, every vital organ suffering in some degree or other. You see these victims of Acid-Stomach everywhere—people who are subject to nervousness, headache, insomnia, billousness—people who'suffer from rheumatism, lumbago, sciatica and aches and pains all over the body. It is safe to say that about 9 people out of 10 suffer to some extent from Acid-Stomach.

If you suffer from stomach trouble or, even if you do not be any stomach distress, yet are weak and ailing, feel tired and dragged out, lack "pep" and enthusiasm and know that something is wrong although you cannot locate the exact cause of your trouble—you naturally want to get back your grip on health as quickly as possible. Then take EATONIO, the wonderful modern remedy that brings quick relief from pains of indigestion, belehing, gassy bloat, etc. Keep your stomach strong, clean and sweet. See how your general health improves—how quickly the old-time vim, vigor and vitality come back!

Get a big 50c box of EATONIC from your druggist today. It is guaranteed to please you. If you are not satisfied your druggist will refund your money.

Rev. William A. Thomas, former rec- tle animals, attracted by the smell of tor of Christ Episcopal church, this food, are often seen scurrying about city, returned recently to Chicago, after spending a year teaching at an Alaskan Episcopal mission, where her brother has been stationed for some

Miss Thomas, who has many Xenia friends, and often visits here, is expected to come to Xenia this week as the guest of the Misses Sarah and Eleanor Williams.

Upon her arrival in Chicago, the Tribune of that city published the following story of her experiences, with her picture in Eskimo costume:

Last December, after a 400 mile our in the wake of a dog team, Miss Virginia Thomas arrived at Point Hope, Alaska, where her brother was in charge of an Episcopal mission. She was the first and only white woman in the subzeroic locality so far remote that whenever her mother placed a two cent stamp on a letter directed to her, it cost Uncle Sam approximately \$65 to deliver it. The mailman came only twice a year.

Miss Thomas immediately took up her duties as purveyor of knowledge to the sixty Eskimos ranging in age from four to thirty years, who fel the yearn for education. At first she taught a night school, but after a month or so the sun began to show tself above the horizon, and the classroom gradually developed into a day establishment.

Reading, spelling, United States history, and artithmetic, comprised the IT'S BAD MEDICINE curriculum, and in the latter subject, three of her masculine pupils, aged 19, 31 and 30, attained the dignity of fractions. That was as far as they could comprehend.

"The girls have been held back for so many generations, that it will take several years before they can even approach the boys in intellect," she said. The only intellectual solution for the Eskimo is to take their brightest boys to the States, educate them, etbook, and sprinkle well with much or fritter away another game? and then send them back to teach the speculation.

The Harshman homestead of 14 rooms, one of the most beautiful country seats in southwestern Ohio, did not sell, for the reason that no offers were received for it and it will be sold separately, it was said Wednesday. The building could not be more conveniently arranged or situated for a club, it has been pointed out, and it was reported Wednesday that a well known social club of Day. ton may enter into negotiatons for the building and grounds.

The sale was largely attended throughout the day. The offer of so much desirable farm land together with dwellings which are considered ideal homes for workers in Dayton, and the factory buildings and exclusive water rights, brought prospective purchasers of all kinds from near

PROGRAM FOR THE YEAR'S WORK

The program for the year's work of the Girls' Friendly Society, was presented by the committee at an interesting meeting which was held at the Parish House Monday night.

A current events class and the study of folk dancing, are among the plans for the winter, to which the girls are looking forward with much pleasant anticipation. Mrs. Winnifred Armstrong has agreed to take charge of the current events class, Mis-Hammil of the O. S. and S. O. Home will teach the girls folk dancing. Miss Hammil is a graduate of the wellknown Schuster School of Expression, Cincinnati. A demonstration of folk dancing is planned for one of the later Spring meetings.

Miss Florence Mitchell gave a very pleasing and enthusiastic report of the G. F. S. convention in Cleveland which she attended last week.
